

### Problem Statement

Date	14-october-2022
Team ID	PNT2022TMID32880
Project Name	News Tracker Application
Maximum Marks	2 Marks

#### Problem Statement:

Mr. Mohan Ram is a working man who is fond of reading news, he frequently reads news, he wishes to read the pertinent market news and need to get help with queries about indices, commodities, currencies, future rates, bond etc. But the fact is he couldn't easily read newspapers. So Through News Tracker Application he could easily read the news on ease.

Question	Description
Who does the problem affect?	Customers such as Mohan Ram.
What are the boundaries of the problem?	geographic, workflow, daily life
What is the issue?	Physical newspapers are old fashioned in this digital era. They cost money to buy, can easily be damaged, limited amount of information, not flexible to modifications, poor quality. Fixing these in such a way can make physical newspapers become extinct and their use can be abolished. If the problem isn't solved, it would become a greater problem to integrate people to become digitally aware.
Where is the issue occurring ?	The issue occurs when people try to access information i.e during the usage. Accessing information is flawed through the usage of physical newspapers in the digital era.
